

PLAYWORKS

Impact Report

INDIANA

2023- 2024

By providing consistent, year over year support, Playworks Indiana saw school partnerships of many years take off and soar to new heights in the 2023-24 school year.

Our professional development and consultancy services outperformed our goal for the year by 12%. Furthermore, we began tracking the number of youth impacted through out-of-school and early childhood programs receiving training. By collecting this data and combining it with school data, we discovered that 18,795 youth were impacted by training provided by Playworks in Indiana and Kentucky.

Playworks Indiana solidified a mutually beneficial relationship with the Louisville Dept of Health & Wellness, allowing four schools in Louisville to partner with Playworks at no cost to the school. This partnership will expand to Louisville out-of-school and early childhood programs in the coming year.

Indiana also served the second largest TeamUp cohort in Playworks Indiana history with 11 schools and maintained three TagTeam partner organizations. We put plans in place to expand the equity of our impact through language access services.

“ Partnering with Playworks has been very beneficial for my students. They really enjoyed learning the new games...It has helped a lot of our students who normally didn't participate in games have the confidence to play. ”
